💻 github.com/rajneesh-1304 ⚡ leetcode.com/rajneesh1304 (300+ Solved)

SUMMARY

Results-driven Full-Stack Software Engineer with practical industry experience building real-time event-driven microservices, multi-tenant databases, and modern, high-performance web applications. Proficient in Next.js, React, NestJS, RabbitMQ, PostgreSQL, Docker, and TypeScript. Solved 300+ problems on LeetCode with strong computer science fundamentals, data structures, and clean architecture practices.

EXPERIENCE

Full Stack Developer Intern • Zenmonk

`Jan 2026 – Present | Panchkula, India`

- Engineered a real-time QR-based attendance tracking platform with **Server-Sent Events (SSE)** for instant sync, reducing manual record-keeping by ~70%.
- Implemented dynamic QR generation, GPS geofencing validation, and duplicate-attendance prevention algorithms.
- Contributed to 4 **NestJS** microservices utilizing **RabbitMQ** event queues with retry policies and dead-letter handling.
- Architected multi-tenant data isolation using **MikroORM** and **PostgreSQL** schema-based separation for strict enterprise security.

Full Stack Developer Intern • Vectrium Ventures

`Jul 2025 – Aug 2025 | Remote`

- Engineered responsive, mobile-first user interfaces using **Next.js 14, React, and Tailwind CSS** with optimized bundle sizes and fast First Contentful Paint.
- Built performant, type-safe **Node.js & TypeScript** REST API endpoints, improving server response times.
- Implemented reusable component patterns and schema-validated forms (Zod) for robust user flows.

Full Stack Developer Intern • SparkScale

`Apr 2025 – May 2025 | India`

- Built resilient RESTful API services with **Node.js and Express.js** for end-to-end task lifecycle tracking.
- Connected backend endpoints with a **Next.js / TypeScript** frontend with optimistic UI updates.
- Implemented structured input validation and centralized error handling middleware.

KEY PROJECTS

Linkora • Social Media Platform

`GitHub ↗`

- Full-featured social network built with React, Next.js, TypeScript, and Tailwind CSS, featuring post feeds, user profiles, interactive comments, and community discovery.

Rydo • Real-Time Video Conferencing Platform

`GitHub ↗`

- Real-time video conferencing application with Stream SDK, Next.js, and TypeScript, featuring HD video/audio calls, screen sharing, meeting scheduling, and participant management.

Taskify • AI Image Generation Platform

`GitHub ↗`

- AI-powered creative platform with intelligent image synthesis, background removal, credit-based usage tiers, and secure Stripe payment integration.

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript (ES6+), C++, C, SQL, HTML5, CSS3, Python
Frontend:	React.js, Next.js (App Router), Tailwind CSS, Framer Motion, Three.js, Redux, shadcn/ui
Backend & Systems:	Node.js, Express.js, NestJS, RabbitMQ, REST APIs, Microservices, Server-Sent Events (SSE)
Databases & ORM:	PostgreSQL, MongoDB, Redis, MikroORM, Prisma
DevOps & Tools:	Docker, Git, GitHub, Linux, Postman, AWS, Firebase, Figma, CI/CD

EDUCATION

Chandigarh College of Engineering & Technology (CCET) • Panjab University

`Graduation: 2026`

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming.
